The State of Wisconsin works to connect veterans with good, family-supporting jobs. One way we do that is by supporting those businesses that hire veterans.

The Veteran Employment Grant is an incentive program to support businesses hiring honorably discharged veterans with a 50% or more service-related disability.

The Benefits of Hiring a Veteran

Veterans have qualities that every employer is looking for: **leadership**, the ability to work as a team leader and a team member, the ability to work under pressure and **meet deadlines**, the ability to give and **follow directions**, planning and **organizational skills**, commitment to **working safely**, and **flexibility** and **adaptability**.
